Welcome to Code Crunch!

- Code Crunch is your go-to platform for collaboration, networking, and hands-on projects. We welcome freshmen, graduates, and alumni from any university, regardless of major or experience level.
- Join us virtually via Zoom or in person at Florida International University. Together, we'll break down barriers in technology, learn through immersive workshops, and build innovative solutions.

Our Mission & Vision

Mission:

Our mission is to equip students with the technical skills and professional connections needed to excel in coding interviews and beyond. We provide a platform where students can collaborate, learn, and grow professionally while emphasizing the importance of diversity and inclusion in the tech industry

Vision:

We strive to bridge the gap between academia and the tech industry by offering hands-on workshops, technical interview preparation, hackathons, and networking opportunities with experts from leading companies. Our vision is to empower students from all backgrounds to achieve their full potential, foster an inclusive tech community, and build a strong, supportive alumni network. By covering a wide range of technical areas, we aim to prepare students for success in a variety of tech careers.

What We Offer

- Hands-On Workshops: Topics include Python, JavaScript, React, and more.
- LeetCode Prep: Weekly sessions to master technical interviews.
- Hackathons: Collaborate on innovative projects in a competitive setting.
- Panel Discussions: Industry leaders from tech giants and startups share insights.
- Global Access: Code Crunch Global launches in October for worldwide participation!

Meet the E-Board

- **President:** Brian Bazurto
- **Vice President:** Amilcar Pena
- **Treasurer:** Bryan Garcia

Why Join Code Crunch?

- Collaborate with peers and mentors.
- Develop technical and leadership skills.
- Network with professionals from top companies.
- Build impactful projects and gain hands-on experience.

A welcoming and inclusive space for underrepresented groups in tech.

4. Attend workshops, participate in events, and join our leadership team.

Together, we innovate and grow.

AI & Data Science

- What to expect
 - Python
 - Different libraries
 - pandas, matplotlib, etc...
 - Data Processing
 - Data Modeling

AI & Data Science

- Topics:
 - Data Collection
 - Data Handling
 - Exploratory Data Analysis
 - Modeling
 - Classification models
 - Regression models
 - Clustering Techniques
 - Association Techniques
 - Outlier Detection Techniques
 - Deep Learning

Environment

Python Version:

- Python 3.10.11
- torch: 2.3.1 + cu121
- keras: 3.5.0

Libraries:

- numpy: 1.26.4
- scikit learn: 1.6.0
- matplotlib: 3.8.0
- pandas: 2.2.2
- seaborn: 0.13.2

Project

- Task:
 - create an AI model using the following datasets:
 - Spotify Songs Dataset (Provided)
 - A Dataset of your choosing (You Choose)
- Goal:
 - construct a model of your choosing (Classification, Regression, etc...), using the algorithm of your choosing (linear regression, KNN, CNN).
 - The best model will be evaluated based on the difficulty of the task given to the model, and the performance of the model
 - i.e.,
 - classification - number of classes
 - regression - data pattern (linear, polynomial, non-linear)

Let's Innovate Together!

Thank you for joining us on this exciting journey! Code Crunch is redefining tech education and fostering inclusivity in technology. Let's collaborate, innovate, and create a brighter future together.
